NATURAL FIBER FILTERS

## FLIP XS-XXL

The **finum**® disposable tea filters of natural FSC®-certified fibers, come in various sizes – perfect for any cup or large pot. A convenient “filling flap” prevents the mess while filling in the tea. These tea filters can also be used without a filter holder as the filling flap facilitates the removal of the filter after brewing. Due to their natural fibers (abaca pulp and cellulose), these tea filters are biodegradable. Their unique true-flavor filtering qualities and the absence of glue or any other binding agent add to their eco-friendly character.
